

THE EMPOWERED PATH · 2027

Ayahuasca

The Path Opener.

The Path Opener shows you where the pattern began.
Sixteen weeks make sure you walk the path it opens.

June 11-18, 2027

Registration closes May 28, 2027

ATTUNE · IMMERSE · ANCHOR

Ten guests maximum · Three night ceremonies in the Shipibo tradition · Playa Grande, Guanacaste, Costa Rica

You have touched it in ceremony. Now walk the path it opened.

You are not new to this work. Years of therapy or coaching, perhaps a ceremony or a retreat. You touched something real, felt the peak, and watched it slide back once ordinary life resumed. You know better, and you are tired of not doing better. What you carry may feel older than you.

YOU MAY RECOGNIZE YOURSELF HERE

- You have touched it, and you have not yet moved it.
- Grief or an old pattern keeps returning: a new relationship, a new form, the same place in the body.
- A single retreat opened the door, and nothing held you once you walked through it.
- You feel a pull toward ayahuasca and the Shipibo tradition, and you want to study within a lineage, not just have an experience.
- Lineage matters to you: who carries the medicine, how ceremony is held, how you are kept safe.
- You have stability in daily life and support at home, and you can honor the health and safety screening, the dieta, and sixteen weeks.

WHAT THE MEDICINE OFFERS

Where the pattern began, seen clearly. Night ceremonies with icaros, held in the Shipibo lineage by Maestro Wilder, then twelve weeks to choose what you carry forward, with change the people around you can see.

WHAT IT ASKS OF YOU

Courage, and trust in the container. Some nights will be hard. The program is built to hold that, before, during, and long after ceremony. The medicine gives as much as you give. The dieta is your first commitment kept, weeks before your first ceremony.

> *Not certain this is your medicine? Your alignment call is where we decide together.*

THE MEDICINE · THE RETREAT

Ayahuasca, the Path Opener.

The vine, brewed with the chacruna leaf, travels to the root, showing where a pattern began, including what came before you. It meets you where you are; it can be tender, and it can reach layers that feel hard. Held at night in the Shipibo tradition by Maestro Wilder, with icaros, floral baths, and two individual consultas that direct the work toward what you carry.

THREE NIGHT CEREMONIES, ONE CONTINUOUS ARC

Four weeks of preparation before the medicine, and a full day between each ceremony. Each night is directed by what the last one revealed.

DAY 2 · SAT JUN 12 · NIGHT

First Medicine

A traditional vomitivo and floral bath prepare the body. That night, the first ceremony builds trust and lets the medicine begin its work.

DAY 4 · MON JUN 14 · NIGHT

The Second Ceremony

A floral bath, then a deepening of what the first made safe to meet. Focused icaros and energy work directed toward each guest.

DAY 6 · WED JUN 16 · NIGHT

The Third Ceremony

The final floral bath and ceremony: harmonizing, anchoring, and closing the medicine arc.

RETREAT	CEREMONIES	GUESTS	MICRODOSE ALLY
Jun 11-18	Three, by night	Ten, maximum	Psilocybin

✦ Around the ceremonies: vomitivo and floral baths, two personal consultas with the Maestro, breathwork, somatic movement, art therapy, beach sunsets, a private chef, and your own ocean-view suite.

> *I came here to really find myself, feeling hopeless, unable to forgive myself for things from my childhood. I got all of that, and more.*

CHRIS · FIRST COHORT

THE SIXTEEN-WEEK ARC

Attune. Immerse. Anchor. Every part has a purpose.

A ceremony can show you where the pattern began. It cannot walk the path for you. Attune prepares the ground, and the dieta is your first commitment kept. Three nights with Maestro Wilder open the path. Anchor protects what opened, with commitments you name, keep, and track. Your Empowered Path guardians and a cohort of ten walk with you through all of it.

Personal calls

One-to-one video calls with your guardian, booked at times that suit you. Two in Attune for intention and tracking, three in Anchor to shape your pathway.

Microdose ally

Psilocybin. Begins after Attune 1 and pauses 5 to 7 days before the retreat, as your guardian directs. It resumes after your first Anchor session, or later if you choose.

Between sessions

Pod pair-ups, a WhatsApp community, daily routines and goals, and integration and resource materials to work with at your own pace.

> *This amount of people allowed actual community to be built between all of us. Nothing is missing. Everything is within.*

PHASE II · IMMERSE · JUNE 11-18

The eight-day arc.

A carefully sequenced progression: three ceremonies with a full day between each, and two individual consultas that direct the Maestro's work toward what you carry. One continuous arc, not a single night.

DAY 1 · FRI JUN 11

The Landing

Arrival, welcome, and orientation. Meeting the land, the circle, and the Maestro, and letting the body and mind slow before the work begins.

DAY 2 · SAT JUN 12 · CEREMONY

Vomitivo & First Medicine

A traditional vomitivo and floral bath prepare the body. That night, the first ayahuasca ceremony.

DAY 3 · SUN JUN 13 · CONSULTA

Integration & First Consulta

Group integration circle and somatic movement. Your first individual consulta: the Maestro receives what surfaced and directs the next ceremony toward it. What he sees carries into your Anchor tracking calls.

DAY 4 · MON JUN 14 · CEREMONY

The Second Ceremony

A floral bath, then the second ceremony deepens what the first made safe to meet, with focused icaros and energy work for each guest.

DAY 5 · TUE JUN 15 · CONSULTA

Weaving & Second Consulta

Integration circle, art therapy, breathwork, and beach time. Your second consulta prepares and focuses the final ceremony.

DAY 6 · WED JUN 16 · CEREMONY

The Third Ceremony

The final floral bath and third ceremony: harmonizing, anchoring, and closing the medicine arc.

DAY 7 · THU JUN 17

Landing It

Closing integration circle, somatic movement, and a sunset beach walk. Anchoring what the medicine revealed into the body before you leave.

DAY 8 · FRI JUN 18

Carrying It Home

A closing circle and departure, with a clear thread into Anchor, which begins June 28.

> *Three ceremonies, two consultas, one continuous arc. Each ceremony directed by what the last one revealed.*

Schedule is a guide and may shift with the needs of the group.

PHASE III · ANCHOR · JUNE 28 TO SEPTEMBER 7

Follow-through. Living what you saw.

Anchor is where what opened becomes how you live. You name commitments, keep them, and track them, with guardians who were in ceremony with you. What Maestro Wilder sees in your consultas becomes the focus of your pathway calls. Community deepens through group sessions and pod pair-ups, and the microdose ally keeps the work active between calls.

WHO HOLDS YOU

Your guardians, across all sixteen weeks.

Your guardians, Michal and Emma, hold every phase, from intake to your final call. They know your story and your intentions, and they sit beside Maestro Wilder in ceremony. Each guest has a primary guardian.

Maestro Wilder Rojas Nunta

SHIPIBO MAESTRO · RESHIN HISMA · MEDICINE CARRIER

Born in Vista Alegre de la Boca del Pachitea, Peru, Wilder has walked with the plant medicines for more than 23 years. Taught by his father and elder cousin in the forest rather than a school, he has dieted master trees, including remo caspi, chihuahuaco, and palo volador, and warmis plants. His icaros carry the ceremony through the night. He holds the medicine for the full retreat and leads two individual consultas with each guest.

Michal

AYAHUASCA GUARDIAN

Co-founder of Imago Community, Michal holds two degrees in psychology and was initiated through Santo Daime, with deep study alongside Colombian Taitas, Peruvian Maestros, and Brazilian Pajés. Michal honors the law of origin while bringing the integration the present time demands, and supports Maestro Wilder in ceremony.

Emma

AYAHUASCA GUARDIAN

Mother, musician, and ceremonial guide rooted in Indigenous wisdom traditions, Emma works with the medicine of sound and voice and supports Maestro Wilder in ceremony. Through Anchor, she helps guests turn moments of expansion into sustainable, lived change.

Hanne

BREATHWORK · ONSITE

A certified breathwork facilitator and professional dancer, Hanne guides breath, meditation, and somatic movement as a fully embodied path to healing. She leads the breathwork of the retreat, helping guests move what the mind alone cannot.

ABOUT THE MAESTRO

His Shipibo name, Reshin Hisma, speaks of colorful feathers that help one see. During four years of compulsory military service, Wilder faced armed conflict and found his own way back through the plants, which shaped his understanding of fear, emotional wounds, and susto. With humility and integrity, he guides people into what he calls the world of the medicines.

INVESTMENT · ENROLLMENT

Limited spaces, held with intention.

PROGRAM INVESTMENT

The full sixteen weeks: intake, Attune, the all-inclusive eight-day retreat, and Anchor. Ten guests maximum, with two places held for partial scholarships.
